

IMPLEMENTING PARTNERS IN OP

Burkina-Faso

ACTIVITY CATEGORIZATION	DONOR	IMPLEMENTING PARTNER (S)	PROJECT NAME	DESCRIPTION	START DATE	END DATE	CROSS CUTTING
DEMAND CREATION	USAID	TBD	Transform/PHARE - field support to centrally funded project	Mixed media social and behavior change communication campaign to increase demand for FP within USAID RISE resiliency zones	Jan-17	Jun-19	
SERVICE DELIVERY	Anonymous Donor	DKT	Increasing the sale and usage of IUDs and medical abortion	The goal of this project is to increase uptake of long-acting FP methods and services and improve the safety and accessibility of post-abortion care by ensuring products are widely available and by increasing demand.	Jan-16	Dec-18	Includes Demand Creation
		IPPF	Global Comprehensive Abortion Care Initiative-Africa	GCACI strengthens the capacity of IPPF Regional Offices and Member Associations (IPPF affiliates) to deliver safe abortion, post-abortion care, and contraceptive services, and to advance the use of client-based data for informing program and management decisions.	Feb-16	Jan-19	
		JHPIEGO	Sustainable Scale-up of PPF: Strengthening Pre-Service Education to Increase Uptake of Postpartum Family Planning in Burkina-Faso	The goal of this project is to increase access to and utilization of quality FP services by transforming how FP is addressed in the post-partum period. It aims to strengthen the public pre-service education system in Burkina Faso to sustainably produce new providers with competency in PPF while also strengthening the service delivery environment to integrate PPF with maternal health services.	Apr-15	Mar-18	
		MSI	Abortion and Comprehensive Contraception through Exceptional Service Standards (ACCESS) - Multi-country	Under the ACCESS program, MSI aims to increase contraceptive choice and LARC use, enhance post-abortion family planning, and increase access to and use of safe abortion, including medical abortion.	Jan-15	Dec-17	
		PATHFINDER	Strengthening Contraception and Safe Abortion Service Delivery in Burkina Faso	This grant to Pathfinder supports increasing access to and uptake of modern contraceptive methods, particularly LTPM, and increasing access to comprehensive abortion care, including post-abortion care.	Sep-15	Aug-18	
		PPFA	Closing the Gap: Sexual and Reproductive Health Service Delivery and Advocacy in Southwest Kenya, Uganda, and Burkina Faso	For this project, PPFA aims to increase awareness of, access to, and use of quality family planning and comprehensive abortion care services in high-need communities by strengthening the capacity of providers to deliver quality SRH services as well as the capacity of partner organizations.	Feb-15	Dec-17	
		UNFPA	AG-Sayana Press Procurement	Aims to support procurement and delivery of Sayana Press to aid a pilot introduction project offering women increased choice and access to effective voluntary contraceptive methods	Sep-13	Aug-16	Women and Youth
		Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH	Training and service delivery for Sayana Press introduction in Burkina Faso	Seeks to contribute to the implementation of the Project for Introduction and Evaluation of Sayana® Press (the Project) in Burkina Faso	Nov-13	Jun-16	
		PATH	Pilot Introduction and Evaluation of Sayana Press	Aims to increase women's access to safe, effective and discreet contraception by facilitating introduction and delivery of subcutaneous contraceptive (depo-subQ in uniject (Sayana Press)) through community, clinic and social marketing channels and undertaking evidence-generating studies of home and self-injection delivery	Feb-13	Dec-17	
		Marie Stopes International	Harnessing the potential of home and self-injection to expand women's access to modern contraception in Senegal, Burkina Faso and Niger	Aims to expand family planning choice for women in Senegal, Niger and Burkina Faso	May-16	May-18	Includes Youth

		PATHFINDER	Evidence to Action Project (E2A) - field support to centrally funded project			
		Marie Stopes International	SIFPO II-MSI	USAID will use existing FP programs to expand its partnership in the RISE zone. MSI will build on existing mobile teams in Center-North and East Regions of Burkina Faso and its future team in the Sahel Region in Burkina Faso to expand FP service delivery in the RISE zone.	Jan-17	Jun-19
	USAID	EngenderHealth, Inc.	Agir pour la Planification Familiale (AGIR-PF)	AgirPF's objective is to increase access to and use of quality Family Planning services in select urban/peri-urban areas in five focus West African countries—Burkina Faso, Cote d'Ivoire, Mauritania, Niger and Togo. AgirPF aims to achieve three results: 1) delivery of quality Family Planning information, products, and services strengthened and expanded; 2) evidence-based service delivery approaches selected, adapted, and implemented; and 3) efforts to remove policy barriers and improve contraceptive commodity security coordinated. FY2016 funds will ensure USAID's continued contribution to strengthening voluntary FP services focusing on catalyzing the implementation and sharing of selected FP high impact practices and contributing to OP goals on new FP users in the implementation countries	Jul-13	Jul-18
		Chemonics International	Global Health Supply Chain - Procurement Supply and Management (GHSC-PSM)	Strengthen country management of health commodities, improve environments for health commodities and facilitate country and regional coordination to ensure long term availability of health commodities in public and private services. FY16 funds will provide systems strengthening technical assistance to support the strategic planning, procurement, distribution and quality assurance related to supply chain management and commodity security in the areas of RH/FP and HIV/AIDS in Togo, Niger, Mauritania and Burkina Faso.	Nov-16	Nov-20
	UNFPA			Contraceptive purchases	Jan-16	Dec-16
ADVOCACY	AFD	ETAT	AFD-Program to support Maternal and child health	Supports emergency obstetric and neonatal care, FP, and population issues	Jan-11	
	GATES	UNFPA	Bridging High Impact Family Planning Communications and Advocacy	Support to work with governments to develop policies and guidelines to support the introduction of Sayana Press in Niger, Burkina Faso, Senegal, Uganda and Bangladesh (and possibly other countries)	Mar-14	Jan-17
		Equilibres et Populations	"Alliance Droits et Santé" Renewal	Seeks to improve women and adolescents' sexual and reproductive health and rights in West Africa, with a focus on family planning issues, through advocacy, social mobilization and networking	Aug-15	Jan-18
	HEWLETT	IntraHealth International	Civil Society for Family Planning (CS4FP)	The CS4FP project deepens family planning advocacy efforts in Senegal, Mali, Benin, Niger and Burkina Faso existing advocacy coalitions supported by the project in each country. This work is highly complementary to the goals of the Ouagadougou Partnership and brings together civil society advocates, religious leaders, young people and other members of civil society to work in partnership to more effectively promote the provision of family planning through improved policies and strategies.	Nov-16	Nov-18
		AFP	Johns Hopkins University (Gates Institute for Reproductive Health) for the Advance Family Planning Project	AFP and its partners will work in nine countries (Burkina Faso, Democratic Republic of Congo, India, Indonesia, Kenya, Nigeria, Senegal, Tanzania, and Uganda) to mobilize and sustain effective family planning advocacy, amplify voices from the global South by cultivating champions of family planning, and document and diffuse best practices in advocacy.	Nov-12	Nov-17
	USAID	Palladium	Health Policy Plus	Strengthen national policy, advocacy and governance for equitable and sustainable health program in FP and HIV/AIDs. FY 16 funds will support advocacy activities around task shifting, commodity pricing and budget tracking. The project will also support Agir-PF and PACTE-VIH in Burkina Faso, Ivory Coast, Mauritania, Niger and Togo to develop and implement advocacy road maps to reduce stigma and discrimination of key populations to satisfy unmet needs on FP.	Sep-15	Sep-20

COORDINATION / M&E	GATES	Futures Institute	Track 20 - Capacity Building to Monitor Progress in Family Planning	Seeks to build essential capacity to enable global and country-level annual reporting of contraceptive use and related estimates in a standard and systematic manner, building accountability platforms, and tracking FP2020 resources and commitments	Apr-13	Mar-18	
		Gates Institute at Johns Hopkins	PMA2020 - Performance Monitoring and Accountability 2020	Support for accountability promotion	Apr-13	Mar-18	
		Johns Hopkins University	Global Early Adolescent Study -- Francophone Africa	Funding to develop a data collection toolkit for 11-13 year olds (and associated field guides) to explore gender norms, attitudes and beliefs as well as the emergence of healthy sexuality in francophone West Africa	Mar-15	Feb-17	
	USAID	TBD	Regional Health Office Evidence for Development (E4D)	Increase availability of evidence in health interventions for improved resource allocation, policy advocacy and program planning. FY16 funds will be used to conduct a mid-term evaluation of AgirPF, and interventions in Lome, Togo. It will complete a regional capacity strengthening training in operations research, financial management and communications with local research institutions in Burkina Faso, Cameroon, Cote d'Ivoire, Mauritania, Niger and Togo	Mar-14	Mar-19	
		John Snow Inc.	Advancing Partners and Communities (APC) (centrally funded)	APC is providing TA to the MOH related to a pilot FP task sharing intervention in two districts. The project, primarily funded by an anonymous donor, is a collaboration between the MOH and a consortium including MSI/BF, EngenderHealth, and Equipop, a local NGO. APC is providing TA to the MOH to help ensure that the project's M&E system is robust and collects the appropriate indicators with a good level of quality.	Oct-12	Sep-17	
	CROSS CUTTING	GATES	International Bank for Reconstruction and Development	Technical Assistance to the country governments developing proposals for the SWEDD Project	Aims to accelerate the demographic transition (i.e. reduced fertility and child mortality) and thus to achieve the broader goals of triggering the demographic dividend (i.e. economic gains) and reducing gender inequality in the Sahel region	Oct-15	Dec-16
