

# IMPLEMENTING PARTNERS IN OP

## Côte d'Ivoire

DONOR	IMPLEMENTING PARTNER (S)	PROJECT NAME	DESCRIPTION	STAR DATE
ONYMOUS DONOR	DKT	Increasing the sale and usage of IUDs and medical abortion	The goal of this project is to increase uptake of long-acting FP methods and services and improve the safety and accessibility of post-abortion care by ensuring products are widely available and by increasing demand. The DKT FWACA region includes Benin, Burkina Faso, Cameroon, Cote d'Ivoire, Mali and Senegal.	Jan-1
USAID	PSI	Transform/PHARE (centrally funded)	Formative research to assess full range of FP and social and behavior change communication (SBCC) for FP implemented interventions and apply a total market approach to identify and prioritize FP market failures related to SBCC. FY2016 funds will also test the use of a human centered design approach to design innovative ways to promote male engagement and partners' dialogue regarding contraception.	Sep-1
ONYMOUS DONOR	DKT	Increasing the sale and usage of IUDs and medical abortion	The goal of this project is to increase uptake of long-acting FP methods and services and improve the safety and accessibility of post-abortion care by ensuring products are widely available and by increasing demand.	Jan-1
GATES	UNFPA	Strengthening collaborative procurement and supply chain management of contraceptives	Aims to systematically analyze and address key supply chain management-related challenges, through interventions at country, regional and global levels	Nov-1
	Pathfinder International	Pathfinder International	To seed a new program in Cote d'Ivoire and increase access to reproductive health care.	Jul-1
HEWLETT	EngenderHealth	EngenderHealth for Support of a Rights-based Approach to Family Planning in Côte d'Ivoire	EngenderHealth works to improve access to and the quality of family planning and reproductive health services in more than 15 countries in sub-Saharan Africa, particularly in the public sector where many women seek services. EngenderHealth has also been an important partner in recent history in promoting a woman's right to choose among the largest variety of modern contraceptive methods. Using insights from previously-funded work, this grant will allow EngenderHealth to practically demonstrate how family planning service providers, policymakers and community members in Côte d'Ivoire, West Africa can act to ensure women's rights are respected when seeking services.	

AFD	NGO	AFD-strengthening FP policy	Support to reproductive health national strategy	
GATES	Equilibres et Populations	"Alliance Droits et Santé" Renewal	Seeks to improve women and adolescents' sexual and reproductive health and rights in West Africa, with a focus on family planning issues, through advocacy, social mobilization and networking	Aug-1
USAID	Palladium	Health Policy Plus	Strengthen national policy, advocacy and governance for equitable and sustainable health program in FP and HIV/AIDs. FY 16 funds will support advocacy activities around task shifting, commodity pricing and budget tracking. The project will also support Agir-PF and PACTE-VIH in Burkina Faso, Ivory Coast, Mauritania, Niger and Togo to develop and implement advocacy road maps to reduce stigma and discrimination of key populations to satisfy unmet needs on FP.	Sep-1
GATES	Futures Institute	Track 20 - Capacity Building to Monitor Progress in Family Planning	Support to build essential capacity to enable global and country-level annual reporting of contraceptive use and related estimates in a standard and systematic manner, building accountability platforms, and tracking FP2020 resources and commitments	Apr-1
USAID	TBD	Regional Health Office Evidence for Development (E4D)	Increase availability of evidence in health interventions for improved resource allocation, policy advocacy and program planning. FY16 funds will be used to conduct a mid-term evaluation of AgirPF, and interventions in Lome, Togo. It will complete a regional capacity strengthening training in operations research, financial management and communications with local research institutions in Burkina Faso, Cameroon, Cote d'Ivoire, Mauritania, Niger and Togo	Mar-1
GATES	International Bank for Reconstruction and Development	Technical Assistance to the country governments developing proposals for the SWEDD Project	Aims to accelerate the demographic transition (i.e. reduced fertility and child mortality) and thus to achieve the broader goals of triggering the demographic dividend (i.e. economic gains) and reducing gender inequality in the Sahel region	Oct-1
AFD	UNFPA	UNFPA- country program support (Muskoka Fund)	Funds maternal health
