Synthèse jour 1

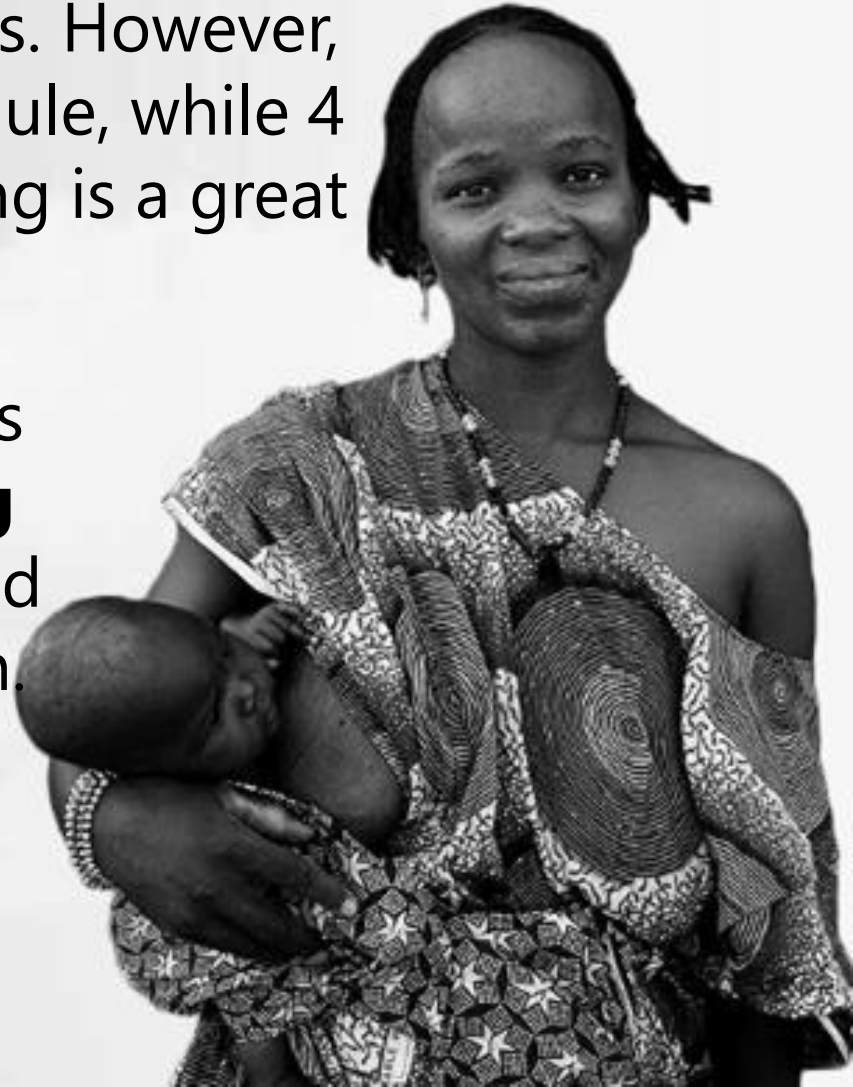

🌍 The Prime Minister committed on behalf of the President – who is also chairman of the African Union – to **make family planning succeed in Guinea.**

🌍 We heard how **sexual activity among youth and FGM is an uncomfortable reality** that we must confront. At the same time, Guinea is putting in place PFP services.

Synthèse jour 1

- 🌍 The region is making great progress – 910k additional users in 2 years. However, 3 countries are ahead of schedule, while 4 are lagging behind. Task sharing is a great example of mixed progress.
